

Special Issue on Environmental Vulnerability Using Geospatial Techniques

Call For Papers

A new Special Issue *Environmental Vulnerability Using Geospatial Techniques* (<http://www.ajremotesensing.org/sinfo/138006>) has been launched in *American Journal of Remote Sensing* (<http://www.ajremotesensing.org>). This Special Issue intends to collect research achievements concerning Geospatial Techniques. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

Lead Guest Editor

Lead Guest Editor: Ahmed El-Zeiny

Affiliation: Department of Environmental Studies, National Authority for Remote Sensing and Space Sciences, Cairo, Egypt

Papers Submission

Potential authors are humbly requested to submit an electronic copy of their complete manuscript by <http://www.ajremotesensing.org/submission>

Topics of Interest Include (but not limited to):

- ♦ Highlighting the global environmental vulnerability problems
- ♦ Assessing environmental pollution
- ♦ Monitoring the spatiotemporal changes in the environmental resources
- ♦ Characterizing mosquito habitats and mitigation measures
- ♦ Magnifying the value of using RS, GIS in environmental studies
- ♦ Setting recommendations to conserve the environmental resources

Important Dates

Submission Deadline: **Feb. 20, 2020**

Publication Deadline: **Apr. 20, 2020**

Join as Guest Editor

For scholars who have intention to join the special issue as guest editor, please check out the link below:
