

# Special Issue on Computational Methods in Geotechnical Engineering

## Call For Papers

A new Special Issue *Computational Methods in Geotechnical Engineering* (<http://journalofcivileng.org/sinfo/229023>) has been launched in *American Journal of Civil Engineering* (<http://www.journalofcivileng.org>). This Special Issue intends to collect research achievements concerning Geotechnology. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

### Lead Guest Editor

Lead Guest Editor: Jian-Yong Han

Affiliation: Northeastern University, Shenyang, China/Shandong Jianzhu University, Jinan, China

### Paper Submission

Potential authors are humbly requested to submit an electronic copy of their complete manuscript via <http://journalofcivileng.org/submission>

### Topics of Interest Include (but not limited to):

- ◆ The numerical assessment of the stability of deep excavations and other underground structures
- ◆ Numerical modeling and design of retaining structures
- ◆ Constitutive modeling and parameter selection of soft soils
- ◆ Computational simulation and monitoring in mechanized tunneling
- ◆ Optimizing of numerical methods for geotechnical engineering
- ◆ Water and food

### Important Dates

Submission Deadline: **Dec. 10, 2019**

Publication Deadline: **Feb. 10, 2020**

### Join as Guest Editor

For scholars who have intention to join the special issue as guest editor, please check out the link below:
