

Special Issue on

The Application of Artificial Intelligence in Disaster Relief Under Complex Disaster Conditions

Call For Papers

A new Special Issue *The Application of Artificial Intelligence in Disaster Relief Under Complex Disaster Conditions* (<http://www.ajnna.org/sinfo/339009>) has been launched in *American Journal of Neural Networks and Applications* (<http://www.ajnna.org>). This Special Issue intends to collect research achievements concerning Artificial Intelligence. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

Lead Guest Editor

Lead Guest Editor: Bobo Ju

Affiliation: School of Optical-Electrical and Computer Engineering, University of Shanghai for Science and Technology, Shanghai, China

Paper Submission

Potential authors are humbly requested to submit an electronic copy of their complete manuscript via

<http://www.sciencepg.com/login/339009>

Topics of Interest Include (but not limited to):

- ◆ Application of the combination of artificial intelligence and remote sensing technology in rapid disaster assessment
- ◆ Application of new special robot technology in disaster relief
- ◆ Big data situational awareness search and rescue personnel distribution
- ◆ The combination of big data and machine learning to perceive potential secondary disasters after disasters
- ◆ Application of machine learning and new UAV cluster technology in distribution of disaster relief materials
- ◆ Application of intelligent Internet of things technology in digital disaster relief

Important Dates

Submission Deadline: **Apr. 30, 2020**

Publication Deadline: **Jun. 30, 2020**

Join as Guest Editor
