Special Issue on

Sustainability Development Through Artificial Intelligence and Miniature Computing

Call For Papers

A new Special Issue *Sustainability Development Through Artificial Intelligence and Miniature Computing* (http://www.ajoai.org/sinfo/542003) has been launched in *American Journal of Artificial Intelligence* (http://www.ajoai.org). This Special Issue intends to collect research achievements concerning Artificial Intelligence and Miniature Computing. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

Lead Guest Editor

Lead Guest Editor: Pushan Kumar Dutta

Affiliation: School of Engineering and Technology, Amity University Kolkata, Kolkata, India

Papers Submission

Potential authors are humbly requested to submit an electronic copy of their complete manuscript by

http://www.ajoai.org/submission

Topics of Interest Include (but not limited to):

- Sensor design for health care applications
- Protocol design for smart city applications
- Reliability and prognostics study on smart healthcare and smart transportation system
- Intelligent wearable electronics

- Edge analytics and deep learning for sustainable development
- Security implementation for smart city applications
- Emerging trends in Smart building and alert systems

- Automated unmanned design for remote monitoring
- QoS issues in communication network
- Investigation of deep learning in smart application

Important Dates

Submission Deadline: **Feb. 20, 2020**

Publication Deadline: **Apr. 20, 2020**

Join as Guest Editor

For scholars who have intention to join the special issue as guest editor, please check out the link below:
