

Special Issue on

Discussion on the Hot Topics in Geotechnical Engineering

Call For Papers

A new Special Issue *Discussion on the Hot Topics in Geotechnical Engineering* (<http://www.jccee.org/sinfo/617003>) has been launched in *Journal of Civil, Construction and Environmental Engineering* (<http://www.jccee.org>). This Special Issue intends to collect research achievements concerning Geo-technology & Engineering. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

Lead Guest Editor

Lead Guest Editor: Pengjiao Jia

Affiliation: University of New South Wales, Sydney, Australia

Paper Submission

Potential authors are humbly requested to submit an electronic copy of their complete manuscript via <http://www.jccee.org/submission>

Topics of Interest Include (but not limited to):

- ◆ Numerical analyses of the stability in geotechnical engineering
- ◆ Optimization of numerical methods for geotechnical engineering
- ◆ Response of soils and foundations in seismic load
- ◆ computational simulation and monitoring in underground structures
- ◆ Application of advanced constitutive model in geotechnical engineering
- ◆ Numerical modeling and design of supporting system
- ◆ Mechanical behavior of an-sliding pile in slope

Important Dates

Submission Deadline: **Dec. 10, 2019**

Publication Deadline: **Feb. 10, 2020**

Join as Guest Editor

For scholars who have intention to join the special issue as guest editor, please check out the link below:
